

The figure displays the convergence of four metrics over time. The 'Prior' metric starts at a high value of approximately 80 and decreases rapidly, following a similar path to the 'Energy' metric, which also starts at approximately 80 but decreases more gradually. The 'Fidelity' metric starts at 0 and increases slowly, while the 'Mass' metric remains nearly constant at 0 throughout the time interval.

time	Energy	Prior	Fidelity	Mass
0.00	80	80	0	0
0.02	40	40	2	0
0.04	25	22	3	0
0.06	22	20	3.5	0
0.08	21	19	3.8	0
