

The figure displays four metrics over time:

- Energy (blue line):** Starts at a high value and decreases monotonically, leveling off after approximately 0.15 time units.
- Prior (orange line):** Starts at a high value and decreases monotonically, following a similar but steeper path than Energy, also leveling off after approximately 0.15 time units.
- Fidelity (green line):** Starts at a low value and increases monotonically, showing a slight upward curve.
- Mass (red line):** Remains nearly constant at a low value throughout the entire time range.
