

The figure displays the evolution of four metrics over time. The x-axis represents time from 0.00 to 0.20. The y-axis represents the magnitude of the metrics. The legend identifies the following series:

- Energy** (blue line): Starts at a high value and decreases rapidly, following a similar path to the Prior initially.
- Prior** (orange line): Starts at a high value and decreases rapidly, slightly faster than the Energy.
- Fidelity** (green line): Starts at a low value and increases slowly, approaching a plateau.
- Mass** (red line): Remains constant at a low value throughout the time interval.

Approximate data points extracted from the plot:

time	Energy	Prior	Fidelity	Mass
0.00	High	High	Low	Low
0.05	Medium	Medium	Low-Mid	Low
0.10	Low-Mid	Low	Mid	Low
0.15	Low	Low	Mid-High	Low
0.20	Low	Low	High	Low
