

The graph displays four metrics over time (0.00 to 0.10). The 'Prior' (orange) and 'Energy' (blue) metrics decrease sharply from high values, with 'Prior' dropping more quickly. 'Fidelity' (green) starts near zero and increases slowly. 'Mass' (red) remains constant at a low level. An 'iterations' scale (0 to 100) is shown at the top of the plot area.
