

The figure displays four metrics over time (0.0 to 0.5). The 'Energy' (blue) and 'Prior' (orange) metrics decrease rapidly from their initial values, with 'Prior' starting at approximately 45 and 'Energy' at approximately 35. 'Fidelity' (green) starts at 0 and increases steadily to about 10. 'Mass' (red) remains constant at a low value of approximately 1. The x-axis is labeled 'time' and the y-axis is labeled 'iterations'.

time	Energy	Prior	Fidelity	Mass
0.0	35	45	0	1
0.1	15	15	2	1
0.2	10	5	4	1
0.3	8	2	6	1
0.4	7	1	8	1
0.5	6	0.5	10	1
