

The figure displays four metrics over time and iterations:

- Energy (blue line):** Decreases rapidly from approximately 0.95 at iteration 0 to about 0.25 at iteration 60.
- Prior (orange line):** Decreases rapidly from approximately 0.95 at iteration 0 to about 0.20 at iteration 60.
- Fidelity (green line):** Increases slightly from approximately 0.05 at iteration 0 to about 0.06 at iteration 60.
- Mass (red line):** Remains nearly constant at approximately 0.05 throughout the iterations.

Iterations	Time	Energy	Prior	Fidelity	Mass
0	0.00	0.95	0.95	0.05	0.05
10	0.01	0.55	0.55	0.05	0.05
20	0.02	0.35	0.35	0.055	0.05
30	0.03	0.28	0.25	0.058	0.05
40	0.04	0.25	0.22	0.06	0.05
50	0.05	0.23	0.20	0.06	0.05
60	0.06	0.22	0.19	0.06	0.05
