

The figure displays four curves representing different metrics over time. The x-axis, labeled 'time', ranges from 0.00 to 0.25. The y-axis is unlabeled. The legend identifies the curves: Energy (blue), Prior (orange), Fidelity (green), and Mass (red). Energy and Prior both decrease over time, with Energy starting higher and decreasing more slowly than Prior. Fidelity and Mass both increase over time, with Mass starting higher and increasing more slowly than Fidelity. The curves for Energy and Prior are very close initially but diverge after time 0.05. Fidelity and Mass are also very close, with Mass slightly higher after time 0.15.

time	Energy	Prior	Fidelity	Mass
0.00	0.95	0.95	0.05	0.05
0.05	0.65	0.65	0.15	0.15
0.10	0.45	0.35	0.25	0.20
0.15	0.35	0.25	0.30	0.25
0.20	0.30	0.20	0.35	0.30
0.25	0.28	0.18	0.38	0.35
