

The figure displays the convergence of four metrics over time. The 'Prior' (orange) starts at a high value and decreases rapidly, following a similar path to 'Energy' (blue) but slightly lower. 'Fidelity' (green) and 'Mass' (red) remain nearly constant at low values throughout the time interval shown.

0.01	~0.45	~0.40	~0.01	~0.00
0.02	~0.25	~0.20	~0.02	~0.00
