

The figure displays four metrics over time and iterations:

- Energy (blue line):** Decreases rapidly from a high value and plateaus around 0.100.
- Prior (orange line):** Decreases rapidly from a high value and plateaus around 0.080.
- Fidelity (green line):** Increases slightly from a low value and plateaus around 0.020.
- Mass (red line):** Remains constant at a low value around 0.010.
