

The figure displays four metrics over time:

- Energy (blue line):** Starts at a high value and decreases rapidly, following a similar but slightly higher trajectory than the Prior.
- Prior (orange line):** Starts at a high value and decreases rapidly, following a similar but slightly lower trajectory than the Energy.
- Fidelity (green line):** Starts at a low value and increases slightly over time.
- Mass (red line):** Remains constant at a low value throughout the time interval.

The x-axis is labeled 'time' and ranges from 0.00 to 0.06. The y-axis is unlabeled but has tick marks. The legend is located in the top right corner.
