

The plot displays four metrics over time and iterations:

- Energy (blue line):** Decreases rapidly from a high value at iteration 0 to near zero by iteration 0.06.
- Prior (orange line):** Decreases rapidly from a high value at iteration 0 to near zero by iteration 0.06.
- Fidelity (green line):** Increases slightly from zero at iteration 0 to a small positive value by iteration 0.06.
- Mass (red line):** Remains constant at a low value throughout the entire process.
