

The figure displays four metrics over time and iterations:

- Energy (blue line):** Decreases rapidly from a high value at iteration 0, following a similar path to the Prior, and levels off near zero after approximately 0.04 time units.
- Prior (orange line):** Decreases rapidly from a high value at iteration 0, slightly faster than Energy, and levels off near zero after approximately 0.04 time units.
- Fidelity (green line):** Starts at zero and increases very slowly, reaching a small positive value by iteration 60.
- Mass (red line):** Remains constant at a low value throughout the entire process.

Time	Iterations	Energy	Prior	Fidelity	Mass
0.00	0	High	High	0.00	Low
0.01	10	Medium-High	Medium-High	~0.01	Low
0.02	20	Medium	Medium	~0.02	Low
0.03	30	Low-Medium	Low-Medium	~0.03	Low
0.04	40	Low	Low	~0.04	Low
0.05	50	~0.01	~0.01	~0.05	Low
0.06	60	~0.01	~0.01	~0.06	Low
