

The figure displays four metrics over time and iterations:

- Energy (blue line):** Decreases rapidly from a high value and stabilizes at a low value after approximately 100 iterations.
- Prior (orange line):** Decreases rapidly from a high value and stabilizes at a low value after approximately 100 iterations, slightly lower than Energy.
- Fidelity (green line):** Increases slowly from a low value and stabilizes at a higher value after approximately 100 iterations.
- Mass (red line):** Remains constant at a low value throughout the entire process.

Iterations	Time	Energy	Prior	Fidelity	Mass
0	0.000	High	High	Low	Low
25	0.025	Medium-High	Medium-High	Low-Mid	Low
50	0.050	Medium	Medium	Low-Mid	Low
75	0.075	Low-Mid	Low-Mid	Mid	Low
100	0.100	Low	Low	Mid-High	Low
125	0.125	Low	Low	Mid-High	Low
150	0.150	Low	Low	Mid-High	Low
175	0.175	Low	Low	Mid-High	Low
