

The figure displays four metrics over time and iterations:

- Energy (blue line):** Decreases rapidly from approximately 0.95 at iteration 0 to about 0.15 at iteration 50.
- Prior (orange line):** Decreases rapidly from approximately 0.95 at iteration 0 to about 0.10 at iteration 50.
- Fidelity (green line):** Increases slightly from 0.00 at iteration 0 to about 0.02 at iteration 50.
- Mass (red line):** Remains constant at approximately 0.00 throughout the iterations.

Iterations	Time	Energy	Prior	Fidelity	Mass
0	0.00	0.95	0.95	0.00	0.00
10	0.01	0.45	0.45	0.00	0.00
20	0.02	0.25	0.25	0.01	0.00
30	0.03	0.18	0.15	0.015	0.00
40	0.04	0.15	0.12	0.018	0.00
50	0.05	0.15	0.10	0.02	0.00
