

The graph displays four metrics over time and iterations:

- Energy (blue line):** Decreases from approximately 0.95 at iteration 0 to about 0.15 at iteration 110.
- Prior (orange line):** Decreases from approximately 0.95 at iteration 0 to about 0.10 at iteration 110.
- Fidelity (green line):** Increases from 0.00 at iteration 0 to approximately 0.02 at iteration 110.
- Mass (red line):** Remains constant at approximately 0.01 throughout the iterations.

Iterations	Time	Energy	Prior	Fidelity	Mass
0	0.00	0.95	0.95	0.00	0.01
20	0.02	0.45	0.45	0.01	0.01
40	0.04	0.25	0.20	0.01	0.01
60	0.06	0.18	0.12	0.01	0.01
80	0.08	0.15	0.10	0.01	0.01
100	0.10	0.14	0.09	0.02	0.01
110	0.11	0.13	0.08	0.02	0.01
