

The graph displays the evolution of four metrics over time. The x-axis represents time from 0.0 to 0.8, and the y-axis represents iterations from 0 to 80. The legend identifies the following series:

- Energy (blue line):** Starts at 0 and increases, approaching a value of approximately 10 by time 0.8.
- Prior (orange line):** Starts at approximately 80 and decreases rapidly, approaching a value of approximately 5 by time 0.8.
- Fidelity (green line):** Starts at 0 and increases, approaching a value of approximately 10 by time 0.8.
- Mass (red line):** Starts at 0 and remains near 0 throughout the time interval.

The Energy and Prior curves intersect at approximately time 0.1, and the Fidelity and Prior curves intersect at approximately time 0.4.
