

The graph displays the evolution of four metrics over time. The x-axis represents time, ranging from 0.0 to 0.3. The y-axis represents the magnitude of the metrics. The legend identifies the following series:

- Energy** (Blue line): Starts at a high value and decreases rapidly, leveling off around time 0.3.
- Prior** (Orange line): Starts at a high value and decreases rapidly, following a similar initial path to Energy but reaching a lower final value.
- Fidelity** (Green line): Starts at a low value and increases steadily over time.
- Mass** (Red line): Starts at a low value and decreases slightly over time.

The following table provides estimated data points from the graph:

Time	Energy	Prior	Fidelity	Mass
0.0	0.85	0.85	0.05	0.05
0.1	0.45	0.35	0.10	0.04
0.2	0.30	0.15	0.15	0.03
0.3	0.25	0.08	0.20	0.02
