

The graph displays four metrics over time and iterations:

- Energy (blue line):** Decreases from approximately 0.95 at iteration 0 to about 0.75 at iteration 60.
- Prior (orange line):** Decreases from approximately 0.95 at iteration 0 to about 0.72 at iteration 60.
- Fidelity (green line):** Increases slightly from approximately 0.05 at iteration 0 to about 0.06 at iteration 60.
- Mass (red line):** Remains constant at approximately 0.05 throughout the iterations.

Iterations	Time	Energy	Prior	Fidelity	Mass
0	0.00	0.95	0.95	0.05	0.05
10	0.01	0.85	0.85	0.05	0.05
20	0.02	0.78	0.78	0.05	0.05
30	0.03	0.74	0.73	0.05	0.05
40	0.04	0.72	0.70	0.05	0.05
50	0.05	0.71	0.69	0.05	0.05
60	0.06	0.70	0.68	0.06	0.05
