

The graph displays four metrics over time and iterations:

- Energy (blue line):** Decreases rapidly from a high value, following a similar path to the Prior initially, but then levels off at a higher value than the Prior.
- Prior (orange line):** Decreases very rapidly from a high value, following a similar path to the Energy initially, but then levels off at a lower value than the Energy.
- Fidelity (green line):** Increases slowly and monotonically from a low value.
- Mass (red line):** Remains nearly constant at a low value throughout the process.

| Iterations | Time | Energy      | Prior       | Fidelity | Mass |
|------------|------|-------------|-------------|----------|------|
| 0          | 0.00 | High        | High        | Low      | Low  |
| 20         | 0.02 | Medium-High | Medium-High | Low-Mid  | Low  |
| 40         | 0.04 | Medium      | Medium      | Low-Mid  | Low  |
| 60         | 0.06 | Low-Mid     | Low         | Low-Mid  | Low  |
| 80         | 0.08 | Low         | Lower       | Low-Mid  | Low  |
| 100        | 0.10 | Low         | Lower       | Low-Mid  | Low  |
| 120        | 0.12 | Low         | Lower       | Low-Mid  | Low  |
