

The figure displays four metrics over time and iterations:

- Energy (blue line):** Decreases rapidly from a high value (around 0.05 on the y-axis) to near zero by iteration 40.
- Prior (orange line):** Decreases rapidly from a high value (around 0.05 on the y-axis) to near zero by iteration 40.
- Fidelity (green line):** Increases slightly from zero, reaching a value of approximately 0.005 by iteration 60.
- Mass (red line):** Remains constant at a low value (approximately 0.002 on the y-axis) throughout the iterations.
