

The graph displays the convergence of four metrics over time. The 'Prior' (orange) starts at approximately 38 iterations and drops to near zero by time 0.4. The 'Energy' (blue) starts at approximately 35 iterations and drops to about 10 by time 0.4. The 'Fidelity' (green) starts at approximately 1 iteration and increases to about 15 by time 0.4. The 'Mass' (red) remains nearly constant at approximately 1 iteration throughout the time period.

time	Energy	Prior	Fidelity	Mass
0.0	35	38	1	1
0.1	15	10	5	1
0.2	10	5	10	1
0.3	8	3	12	1
0.4	7	2	15	1
