

The figure displays four metrics over time. The 'Energy' (blue) and 'Prior' (orange) metrics decrease sharply from their initial values, with 'Prior' decreasing faster than 'Energy'. The 'Fidelity' (green) and 'Mass' (red) metrics increase slowly and linearly over time. The 'Energy' and 'Prior' curves are very close to each other until approximately time 0.10, after which they diverge, with 'Energy' remaining higher than 'Prior'.

time	Energy	Prior	Fidelity	Mass
0.00	25.0	25.0	0.0	0.0
0.05	10.0	10.0	1.0	1.0
0.10	5.0	4.0	2.0	2.0
0.15	3.0	2.0	3.0	3.0
0.20	2.0	1.0	4.0	4.0
0.25	1.5	0.5	5.0	5.0
